

ENVIRONMENTAL IMPACT QUESTIONNAIRE AND APPLICATION

Project Location/Address: _____ Assessor's No.: _____

Project Description: _____

Applicant's Name, Address & Phone No.: _____

Owner's Name, Address & Phone No.: _____

Size of Proposed Project Site (e.g., Acres of Land, Sq. Ft. of Commercial/Industrial Bldgs., No. of Dwelling Units):

The applicant shall complete all questions (use additional paper if necessary) and shall submit a plot plan, elevations and project description when applicable.

1. Soils and Topography

Briefly describe any grading or topographic changes needed to carry out the project. _____

2. Geologic Hazards

a. Note any known fault or faults occurring on this site. _____

b. Is any part of this property within the special study zone of the main Hayward Fault trace as established by the California State Geologist? Yes ☐ No ☐

c. Does this site have any evidence of past land slides or will any part of the development lie in the path of potential slides occurring on other properties? Yes ☐ No ☐

3. Water Resources

a. Will the proposed project alter the water table or cause pollutants to enter into the underground water supply? Yes ☐ No ☐

b. Describe the method(s) to be used to manage storm water. _____

4. Plants and Animal Habitat

a. Does the site contain any known endangered animal or plant species habitats? Yes ☐ No ☐

b. Does the site contain any known important wildlife breeding, nesting, or feeding areas? Yes ☐ No ☐

c. Does the site contain any heritage landmark trees? Yes ☐ No ☐

5. Noise, Vibration, and Glare

Will the project produce a noticeable change in the ambient noise levels or subject persons to excessive noise levels or produce vibrations or glare?

Yes ☐ No ☐

If so, what would cause the change?

6. Solid and Liquid Wastes

Estimate the amounts of sewage and solid waste materials this project will generate daily. _____

7. Community Safety

Note any unusual requirements of this project for fire or police services such as storage of hazardous materials.

8. Public Facilities (Residential Developments)

Estimate the number of school children who will live in this project. _____

9. Traffic Circulation

Estimate the number of auto and truck trips generated daily by this project. Indicate trip generation factor and source of traffic. _____

10. Social (Residential Development)

Describe the housing mix (unit types and prices/rents) of this project.

11. Aesthetic

Briefly describe the overall development pattern, structure types and proposed landscape treatment.

12. Growth Influences

Will the provision of public facilities (e.g., sewer and water mains) to serve this project open up additional areas for development?

Yes ☐ No ☐

13. Historical Resources

Does the property contain historical resources as identified on the General Plan and as shown on Primary/Secondary Historic Resource Maps?

Yes ☐ No ☐

List all historic resources. _____

14. Trails

Will the project provide a portion of the City-wide trail system?

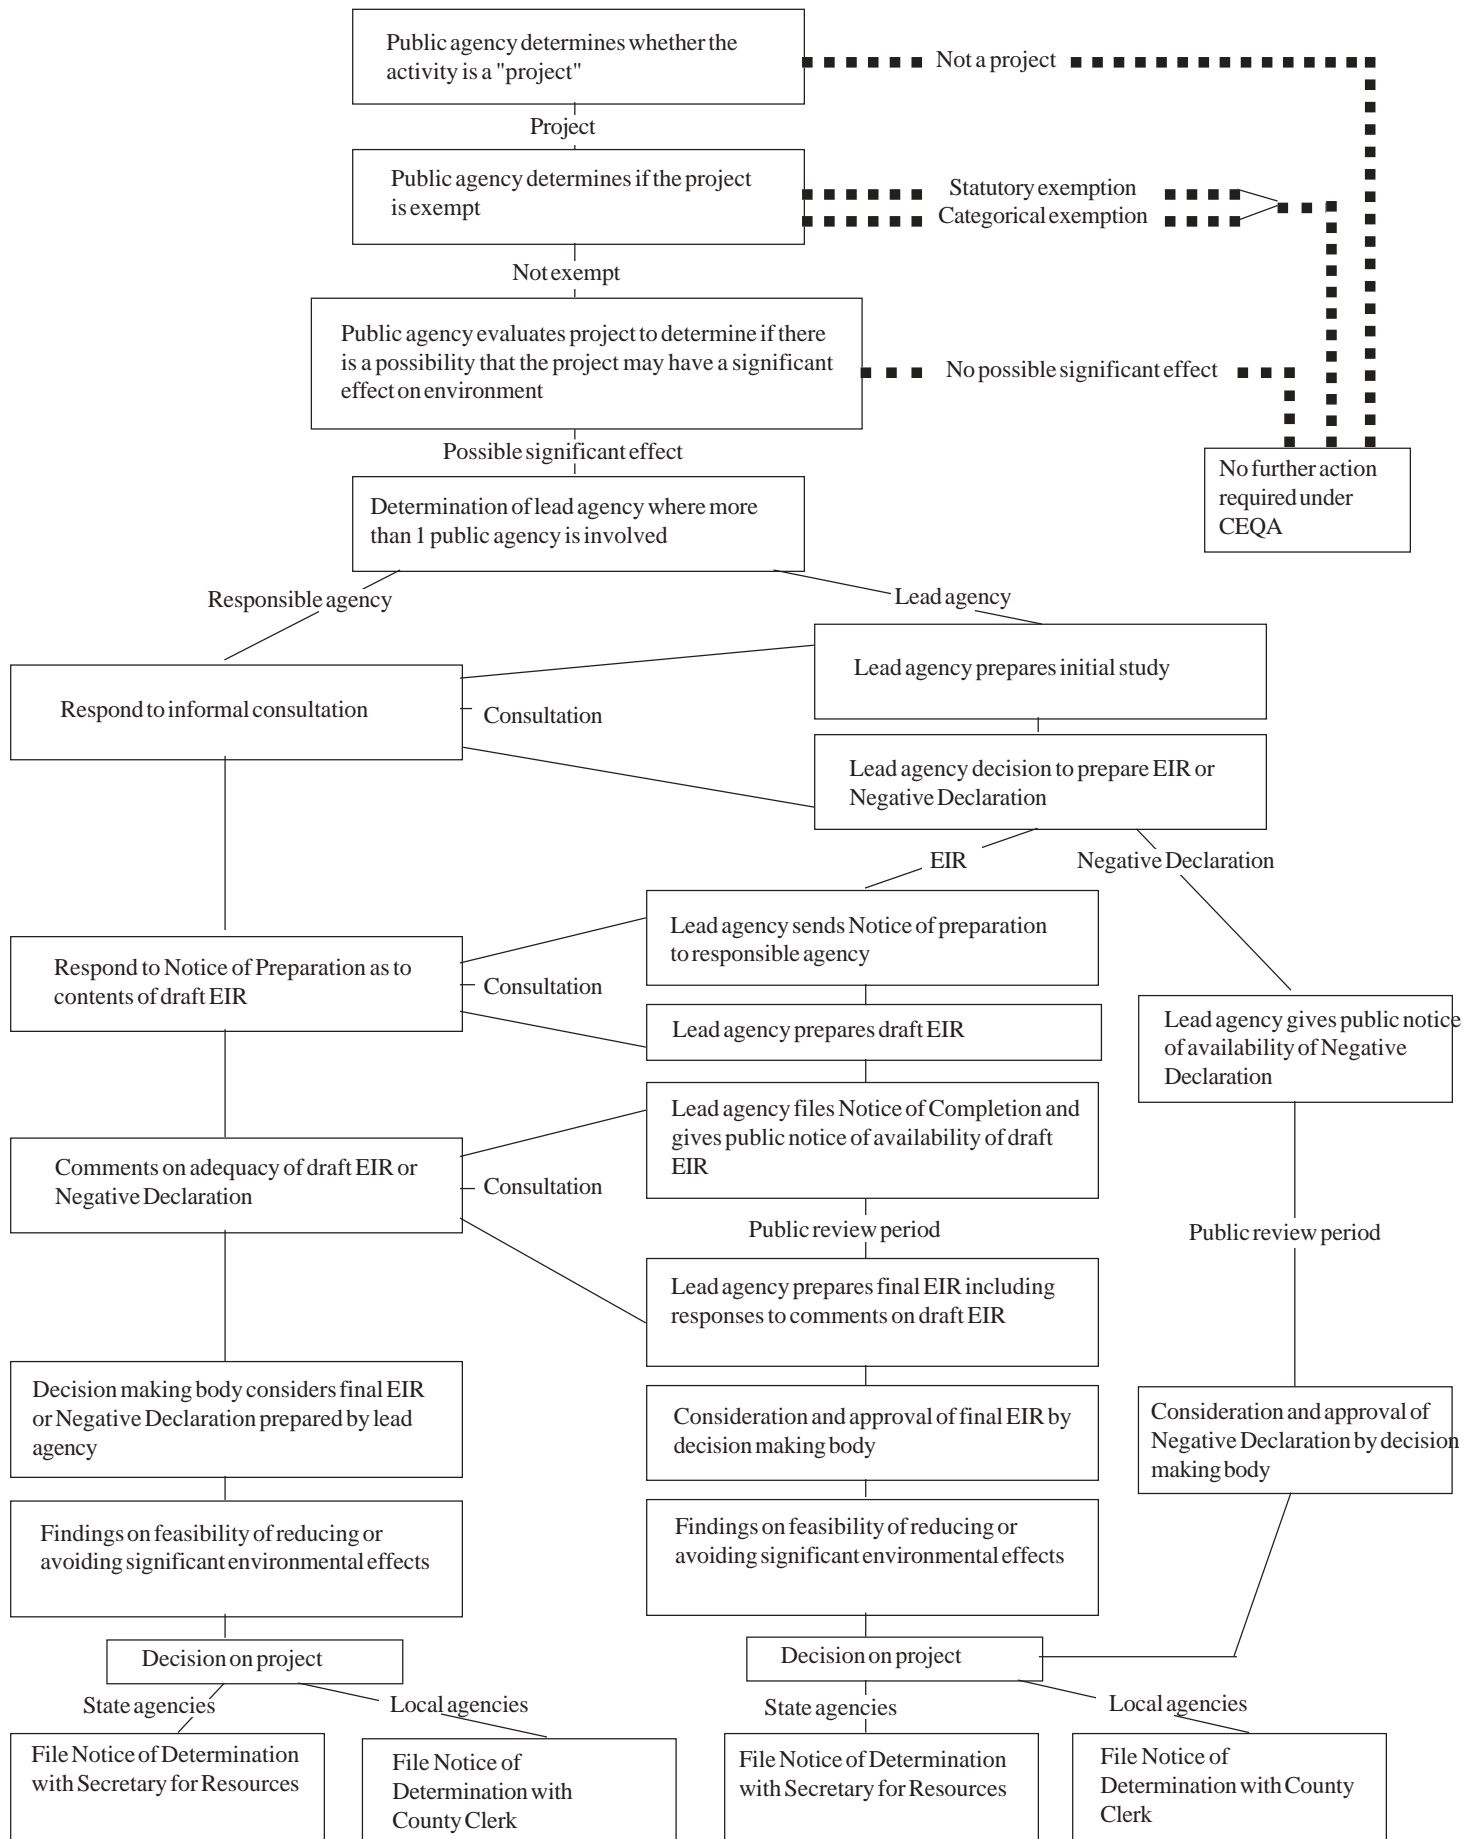

Yes ☐ No ☐

List type of trails. _____
